TAPPAL INWARD NO:
10	CAO DIRECTOR

I am Mrs. V. Bharumathi aged 71 years undergoing chemotherapy for cytoreduction after ct ovary treatment. I came to Kidwai Hospital on 4.9.23 for taking PET CT and BRCA Tests. I would like to express my experience in the beautiful Kidwai Hospital campus. The whole premises were neat and clean on par with any other Corporate Hospital. The rest rooms were well maintained. The staff were very patient, brisk and helpful. The staff in the molecular lab clearly explained the significance of BRCA Tests in determining the correct medicines and in improving the quality of life of cancer survivors and their offsprings. Hats off to Kidwai Hospital for their remarkable service to cancer patients mainly the poor and the needy.

Yours Sincerely,
V. Bharumathi.
